PRODUCT DATASHEET

GEPAX™ 8000 SHEET

DESCRIPTION

The GEPAX™ 8000 sheet has been specifically developed for outside applications where color stability is required. GEPAX 8000 sheets combine extremely high impact performance with good stiffness over a wide temperature range (-30 to 110 °C). GEPAX 8000 sheets provide 2 side UV – resistance and excellent formability.

PROCESSING

GEPAX™ 8000 sheet is an excellent candidate for thermoforming. It offers high, deep draw ratios, equal wall thickness distribution, and it can be formed into complex shapes using standard thermoforming equipment. Sandwich type heating systems give the best results. GEPAX 8000 sheet has a forming temperature range of 185 - 205°C. When forming, a draft angle of at least 3° should be allowed, and post mold shrinkage of 0.6 - 0.8% taken into account.

PRE-DRYING

It is important to ensure that GEPAX 8000 sheet is kept free of moisture prior to thermoforming. A hot air circulating oven set 120°C is recommended. Pre-drying times vary from 4-24 hours, depending on sheet thickness.

ASSEMBLING

Parts made from GEPAX 8000 sheet can be assembled with plastics, metals, rubber and other materials using many types of adhesive bonding, welding and mechanical fastening techniques. Further information and advice is available on request.

PAINTING

For either functional or decorative reasons it may be necessary to apply finish to GEPAX 7000 sheets or vacuum formed parts. The product is ideally suited for use with a wide variety of modern decoration techniques. A list of approved paint systems and suppliers is available upon request.

CHEMICAL RESISTANCE

GEPAX 8000 sheet has sufficient resistance to most mineral oils, greases, aliphatic hydrocarbons and acids under low or moderate stress levels. In applications where the GEPAX 8000 sheet will come into contact with aggressive chemicals, specific (application related) testing is always advised. Effective painting systems can improve chemical resistance.

SAFETY

The processing guidance given in this documentation is given in good faith and the trust that in all cases you wear the correct Personal Protective Equipment (PPE), e.g. helmet, proper gloves, safety goggles etc. to safely fabricate, e.g. (but not limited to) sawing, cutting, forming our sheets and films. In all cases you should follow local and national regulations around the wear of PPE's prescribed or mandatory to perform these tasks in a safely manor.

PRODUCT AVAILABILITY

Product code:	GEPAX™ 8000 Sheet
Standard width:	Grade 8000: 1250 & 2050mm
	Grade 8005: 1300 & 2050mm
Gauges:	2-8mm
Textures:	Polished/Polished (8000), Polished/Matt (8005),
Colors:	Black 78927, Light Gray 78944, Off White 78943

Other colors/sizes are available by special request.
