WARRANTY CONDITIONS

LEXAN™ EXELLDP SOLAR CONTROL IR SHEET

10 YEAR LIMITED WARRANTY ON BREAKAGE & WEATHERING

LEXAN™ EXELLDPSCIR is a member of the LEXAN™ EXELLDP clear sheet family. Standard LEXAN™ EXELLDPSCIR sheets will not break due to loss of impact strength through weathering and will not display excessive yellowing and loss of light transmission as defined herein, within ten (10) year of the date of sale by POLYVANTIS India.

This limited written warranty is subject to the following conditions:

1.
The limited written warranty applies exclusively to sheet glazing produced by POLYVANTIS in India in GN8A081T color used correctly as flat or curved glazing, handled, stored, processed, installed, and maintained according to POLYVANTIS India recommendations contained in the Technical Manual.

2.
These sheets are protected against UV on both sides.

3.
This limited written warranty does not apply to sheet that has been scratched, abraded, or exposed to corrosive materials or chemicals.

4.
This limited written warranty is given only to the original purchaser of POLYVANTIS India sheet and does not extend to any subsequent purchaser or transferee. Any warranty claim hereunder must be made immediately within the warranty period by specifying the claim in writing and submitting to POLYVANTIS India the original sales receipt which must contain the name and address of the purchaser, the date of purchase, the complete product name, the lot number, and the volume purchased. On request of POLYVANTIS India claimant must allow the material to be inspected on site and/or return the sheet to POLYVANTIS India for testing.

5.
For the purpose of this limited written warranty:
Mechanical properties after 10 year:

A. Loss of impact strength through weathering will be determined by subjecting an undamaged sample of the sheet to the German standard test for impact resistance (DIN 52290, Part 4, level A1). Acceptance of a claim under this limited written warranty requires that the sample sheet fails this test.
B. Yellowing will be determined by subjecting a cleaned sheet sample to Yellowness Index Test ASTM D1925 (1977). Any claims for sheet displaying a change in Yellowness Index of less than 6Δ compared with its original value, will not be accepted.

WARRANTY CONDITIONS

C. Loss of light transmission will be determined by subjecting a cleaned sheet sample to Light Transmission Test ASTM D1003 (1977). Any claims for sheet displaying a loss of light transmission of 6% points or less compared to its original value, will not be accepted.

6.

POLYVANTIS India reserves the right to investigate independently the cause of any failure.

7.

If a claim under this limited written warranty is justified, POLYVANTIS India will provide replacement material free of charge in accordance with the following schedule:

Time from Orig. Purchase Date	Material Replacement
Up to 5th year	100%
in 6th year	75%
in 7th year	60%
in 8th year	45%
in 9th year	30%
in 10th year	15%

If replacement material cannot be provided within a reasonable period, POLYVANTIS India may opt to refund the original purchase price paid to POLYVANTIS India, or a portion thereof, in accordance with the above schedule.

8.

This limited written warranty shall be POLYVANTIS India sole liability and customer's exclusive remedy for the products and all other claims for damages are excluded. This warranty is in lieu of all other warranties (except of title), written or oral, statutory, express, or implied, including any warranty of merchantability or fitness of purpose. This warranty shall be governed by the laws of India.

9.

This limited written warranty has been issued on December 23, 2019, and is restricted to LEXAN™ EXELLDPSCIR material sold by POLYVANTIS India after such date and supersedes all previously issued warranties for above-mentioned products, sold after said date. The validity of this limited written warranty is restricted to LEXAN™ EXELLDPSCIR sheet, and this limited written warranty is the sole warranty for LEXAN™ EXELLDPSCIR sheet.

This warranty is valid for INDIA, SEA, NEW ZEALAND & AUSTRALIA (except in North, West & Central locations) with a maximum annual IR solar radiation of 1700 kWh/m²
